Petitions For Figueroa Area Sewers Allowed

The Board of Supervisors has authorized the diversion of a petition for the installation of sanitary sewers in Figueroa st. in the vicinity of Torrance.

According to Supervisor Raymond V. Darby, author of the motion, the order requires that the petition be returned to the Board of Supervisors on or before Sept. 1, 1946, containing the signatures of at least 60% of the owners of the area of the proposed district. The estimated cost of the improvement is \$11,000. The cost of main line sewers per assessable front foot was estimated at \$4.65 and the cost of each house connection constructed to curb line was estimated at \$15.53. The total assessed valuation of the property in the district is \$10,740, of which \$3,040 represents land and the balance is made up of improvements and secured personal property.

"FIRE PISTON"

In their "fire piston" natives of the Malay peninsula invented the compression ignition principle of the diesel engine at least 1,000 years before it was re-invented in Germany. Tinder placed at the bottom of a wooden cylinder is ignited when a closely fitting plunger is struck with the hands, creating heat by air compression.

In a Lesson-Sermon citation the Psalmist says: "What shall I render unto the Lord for all his benefits toward me? I will take the cup of salvation, and call upon the name of the Lord. I will pay my vows unto the Lord now in the presence of all his people." "Who shall ascend into the hill of the Lord? or who shall stand in his holy place? That hath clean hands, and a pure heart. . . He shall receive the blessing from the Lord, and righteousness from the God of his salvation."

"The Bible teaches the transformation of the body by the renewal of the mind. Mary Baker Eddy in "Science and Health with Key to the Scriptures."
